February 19, 2025

9:00AM – 12:00PM

Online

The NAWMA workshop

Announcing the gathering of the Eastern Sierra & Northern Nevada Native American Water Master's Association on February 19, 2025, from 9AM to 12PM online.

The purpose of this workshop is to provide a forum to discuss evolving drinking water and wastewater technologies, regulations, and issues facing Tribal water as well as Tribal environmental departments.

The workshop also supports local Tribal water operators by providing contact hours needed to maintain drinking water certification. This workshop allows for networking with local operators and environmental staff.

NAWMA workshops will be planned for throughout the year and coordinated by local RCAC technical assistance providers. The workshops will be held in person and online.

Accreditation: 3 California Contact Hours.

AGENDA TOPICS:

Welcome and Introduction to
Eastern Sierra & Northern Nevada NAWMA,

Water Distribution Operator Certification Review

Do you cringe when someone mentions the word test? Many operators get nervous about this when it comes to testing. Come learn the basics of water distribution so you can prepare to take the D1 D2 test. If you are new to water distribution and just want to learn the basics.

Topics we will cover:

- Types of Water Distribution System
- Rules and Water System Materials
- Disinfection Methods
- Water Pressure and More!

We can put information into terms that make it a little easier to understand.

In this workshop we will introduce you to the method of laying out a math problem and making it easier to put the numbers in your calculator correctly to get the right answer. We will try to make sure that the math answers make sense when you do use a calculator to figure them out. Come review and practice with us.

Please pre-register at your earliest convenience

Electronic registration is provided at: <https://www.events.rcac.org/assnfe/ev.asp?ID=4621>
